Project Food, Land & People promotes approaches to learning to help people better understand the interrelationships among agriculture, the environment and people of the world. The FLP workbook contains 55 Pre-K through 12th grade lesson plans for use in either a formal or non-formal educational setting. Twenty of the FLP lessons have been fully translated into Spanish for use in Spanish-speaking or bilingual classrooms and are available upon special request. Participants of the workshop will receive the FLP curriculum and activity guide book, training on how to conduct a FLP lesson and much more!
